Research Assistant - Cognitive Neuroscience of Cognitive Control and Memory

A Full-Time Research Assistant position is available in the Cognitive Control and Memory Lab at Brown University. Our lab conducts cognitive neuroscience research on memory and executive function. Responsibilities include general assistance with ongoing projects in the lab and general lab administration.

Minimum Qualifications include:

- BA or BS Degree (expected by July 2016) in Cognitive Science, Neuroscience, Computer Science, Psychology or a related field.
- Research experience in the behavioral or neural or data sciences. Experience with fMRI or other cognitive neuroscience methods is desirable, but not required.
- Good interpersonal/organizational skills.
- Basic computer skills required. Programming ability will be given preference.

How to Apply:
External candidates need to apply through Brown’s Career Website
